

\* The following list is based on the largest awards in New York in 2004, as reported by American Lawyer Media's VerdictSearch, a database of verdict, settlement, and arbitration information.

VerdictSearch case information includes expert witnesses, attorneys, jury awards, and punitive damages in the areas of medical malpractice, products liability, and premises liability, wrongful death, motor vehicle and toxic torts, among others. Though the cases were tried in New York courts, the law firms listed are not necessarily New York-based firms.
